4. What concrete proposals for change of the course would you suggest?

- If we have more time for final assignment it would be great
- I liked that we only had assignments and the literature seminar but the presentation days were really hard. I'd advice to split the group, I would've been okay for me to come twice a week for the presentations and than hear only 4-5 students present.
- Clearer information on marking of assignments and what is expected e.g. format of essay, length of presentations
