Akademiska Hus presents Vintercampus 2009

As part of our work to create a vibrant campus where the university, businesses and the public can meet in a relaxed manner, Akademiska Hus is offering a day of thrilling winter experiences at Campus Umeå, Ängarna. Sit in on reindeer hides around an open fire in the Sami "kåta" and taste wilderness food. Ride Icelandic horses, meet some reindeer, have a go at cross-country skiing, grill sausages, take a dip in a hot tub (remember your swimsuit) or enjoy an exhilarating dog sled ride. Come and experience Vintercampus at Campus Umeå, Thursday 19 February, 11am-4pm. Welcome!

Akademiska Hus is one of Sweden's biggest property companies. We are specialists in creative environments and build thriving campuses where studies, research, businesses and services can grow and cooperate. We have activities throughout the country, from Malmö in the south to Kiruna in the north. More information is available at www.akademiskahus.se
