

Technical Requirements for Online Courses

To be able to participate in our online courses, you must have access to a computer with internet access. Further requirements may vary depending on the course, but a recommended minimum setup is a PC running Windows 7, 8 or 10 or a Mac with OS X version 10.9 or later.

The requirement for type of internet connection can vary from course to course, but a broadband connection is recommended.

Recommended web browsers include the latest versions of Google Chrome or Firefox. Java and cookies must be enabled in the web browser.

A headset is required for some courses (alternatively: a separate microphone and headphones). If this is the case for the course you have applied to, this is indicated alongside any other deviations from the minimum requirements listed above in the welcome letter you will receive once you are admitted to the course.

If you have questions, please contact magnus.nordstrom@umu.se
