

UMEÅ UNIVERSITET

Final report: 5KE165HT21 Foundations of Chemistry

Unit code: 5KE165

Name of course: Kemins Grunder/Foundations of Chemistry

Credits: 15 hp

Pace: 100%

Semester: Fall 21 (11/21 -- 1/22)

Unit coordinator: Andy Ohlin

Delivery (campus/online-remote): Campus (some restrictions due to COVID)

Indicate if the unit is part of a program:

Part of BS in Life Sciences (Fall)/ BS Biotechnology (Spring). Elective in the Teacher and Bio/Geo programmes.

| | | | | | |
|---|---|----------------------|--|----------|----------|
| Number of registered students | 39 students registered. 30 present for intro (26 LISC, 1 ERASMUS, 3 no program)* 23 students completed the labs. 24 passed the exam after the regular exam + resit. | | | | |
| Number of responses on unit evaluation | 28 responses (23 LISC, 5 other/none (includes ERASMUS)) | | | | |
| | New students | Re-registered | Dropped | | |

Course evaluation

<<See appendix>>

Comment by unit coordinator:

Comments and ratings are overall positive, and are typical of the responses over the past few years.

UMEÅ UNIVERSITET

Ratings of individual sections/lecturers have been removed from the appendix (2 pages). Those responses are summarized here: all sections except two received average ratings above 3 (out of 5). The ratings for each lecturer are consistent, suggesting that the section ratings depend largely on the lecturer rather than the section.

Full text responses have been removed from the appendix (14 pages). Those responses are summarized below under 'summary of comments by the students'.

Summary of comments by the students:**Q: 'What aspects of the course are you MOST satisfied with?'**

Common responses:
Specific lecturers, organisation, overall content

Q: 'What aspects of the course are you LEAST satisfied with?'

Labs at the end of December, lack of timely updates to canvas for certain sections, lack of recorded lectures (since it was on campus)

Q: 'Anything else you'd like to add?'

Request: no deadlines on Christmas eve, issue with different teachers using different teaching methods, issues with menti

Summary of changes introduced after the last time the course was delivered

- Back to campus

Summary of suggested changes prior to the next time the course is delivered

None.

Final report created 24/10/2021, by Andy Ohlin

UMEÅ UNIVERSITET

Appendix.
Course evaluation 5KE165HT21

Comments by students have been removed. Data that identifies individual teachers has been removed.

Course evaluation 5KE165 HT21

Course evaluations are critical in helping us develop our courses. They are also important for career development.

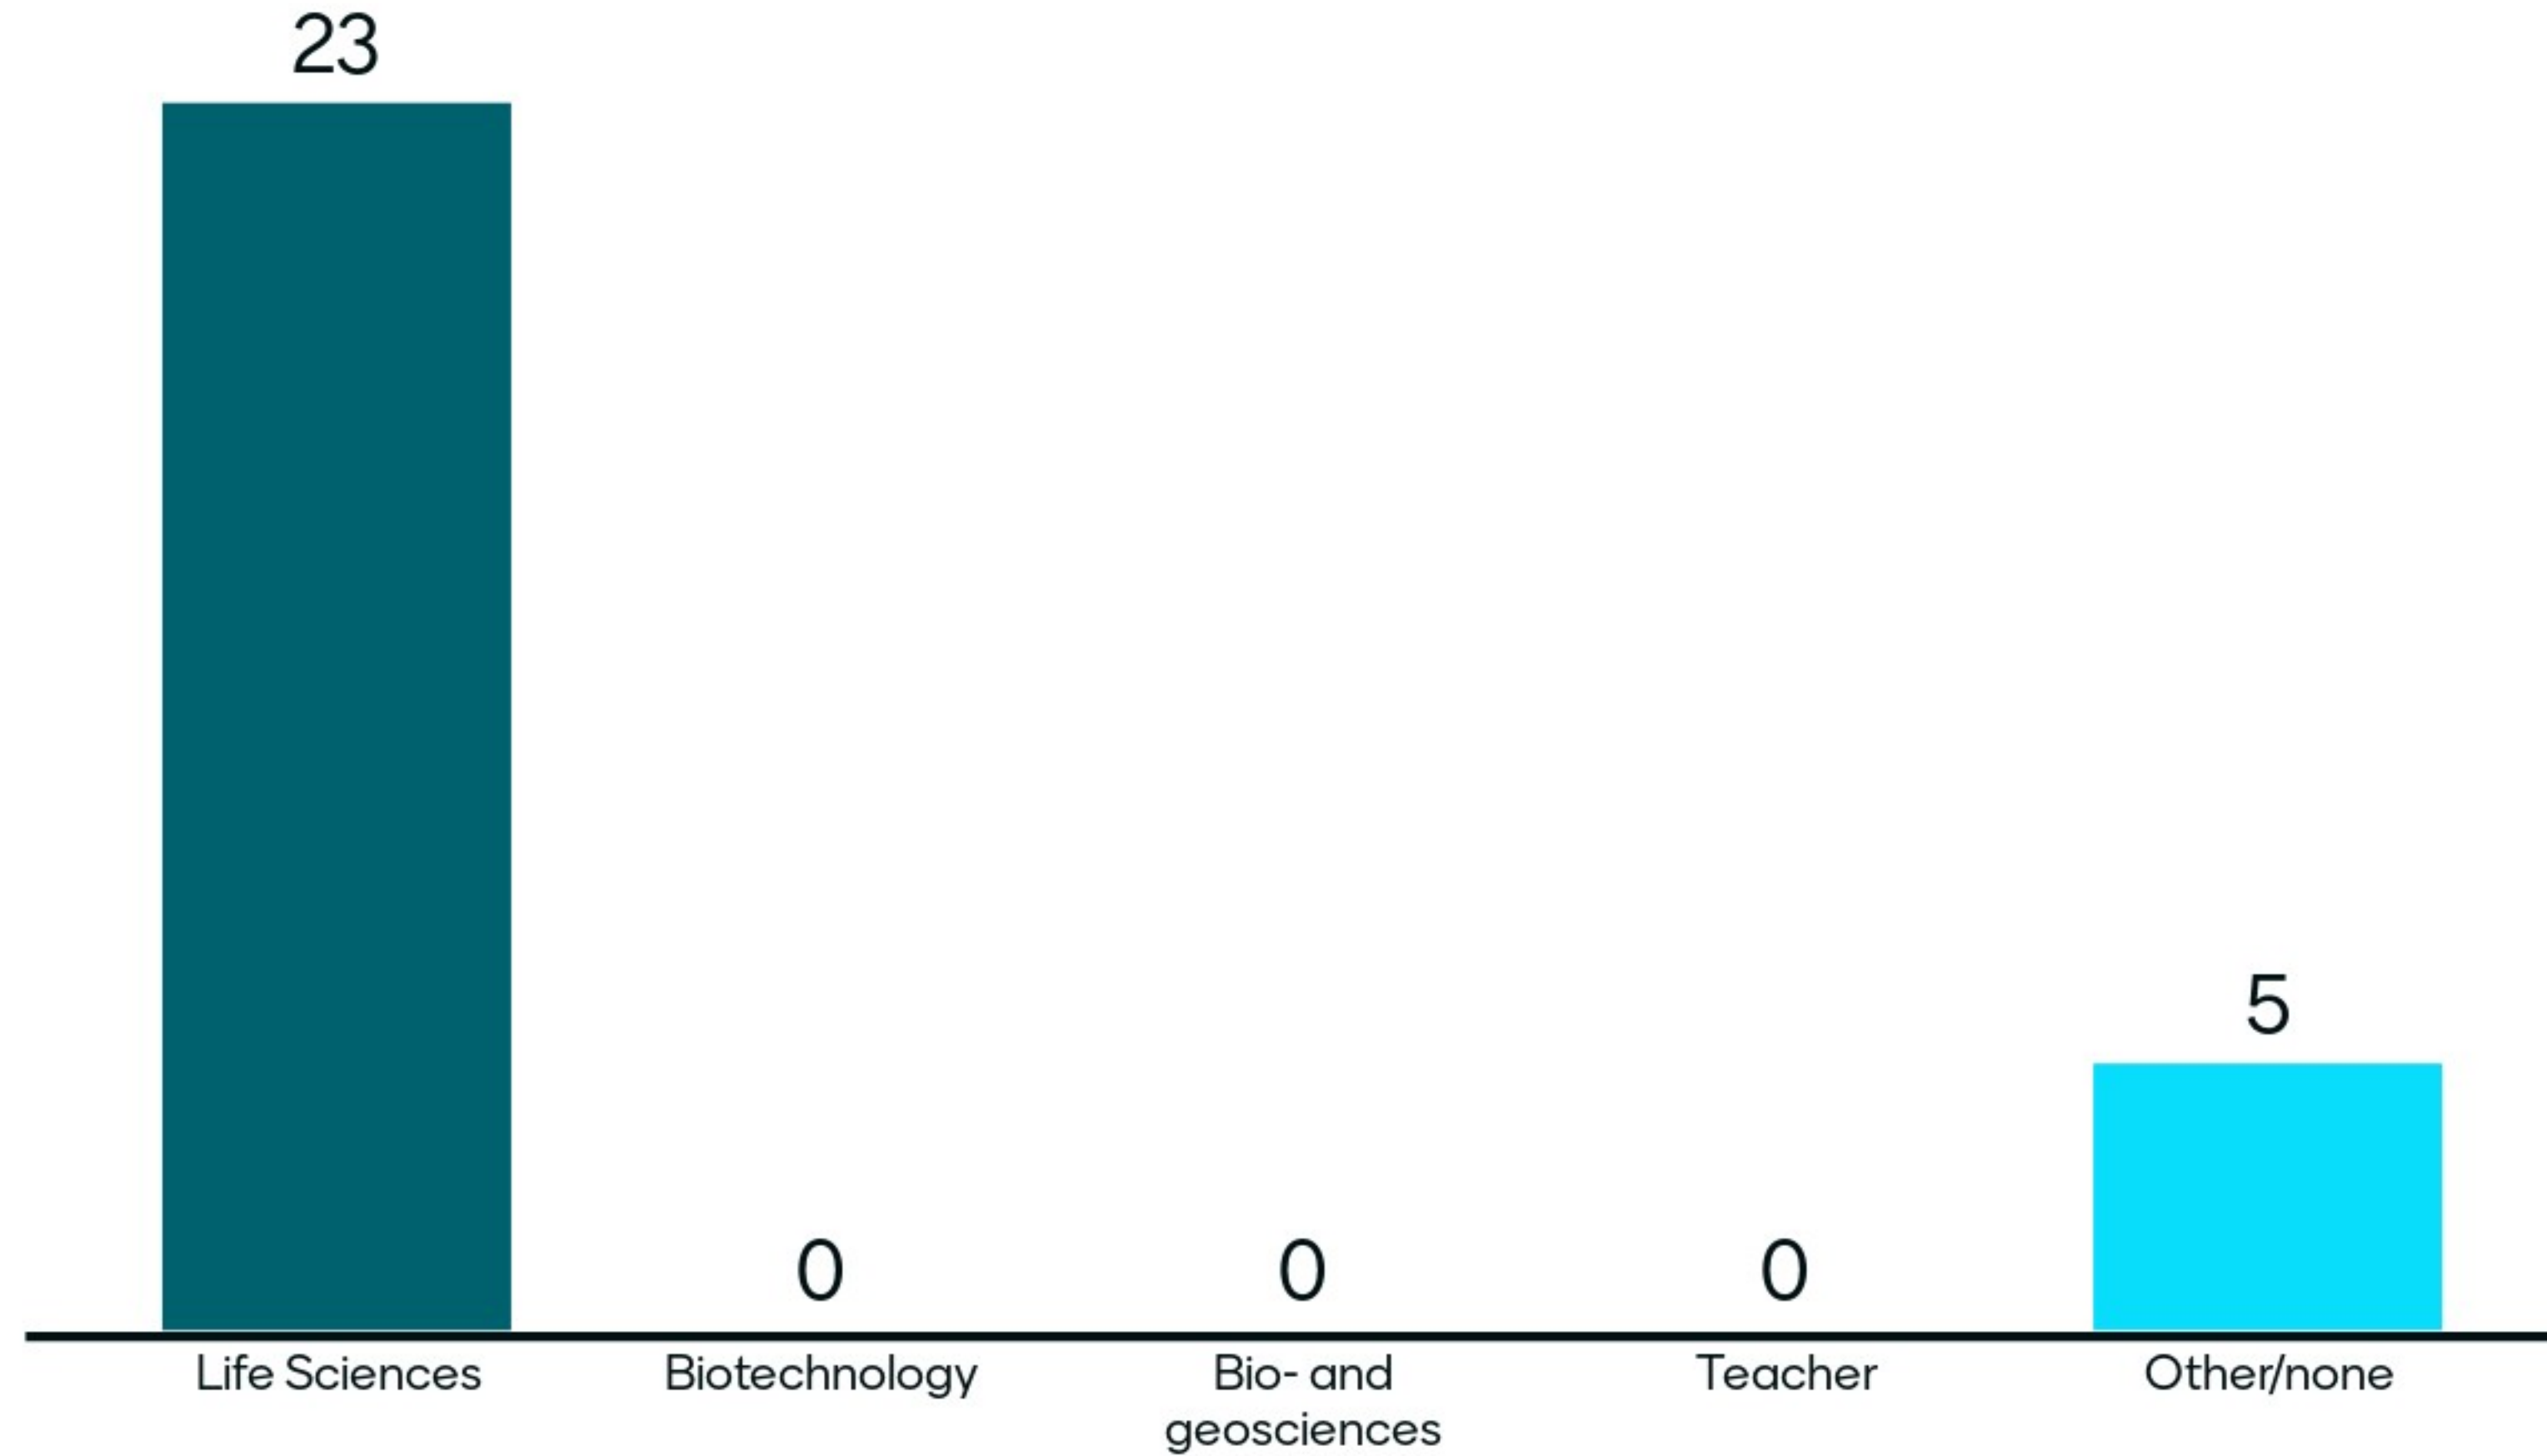

Please make sure to fill out this evaluation, even if you don't have any strong or particular opinions. It is possible to skip questions which you do not/cannot answer.

There are 13 pages, including this one. Most questions use a slider or are multiple choice. The last three slides have opportunities for you to enter text.

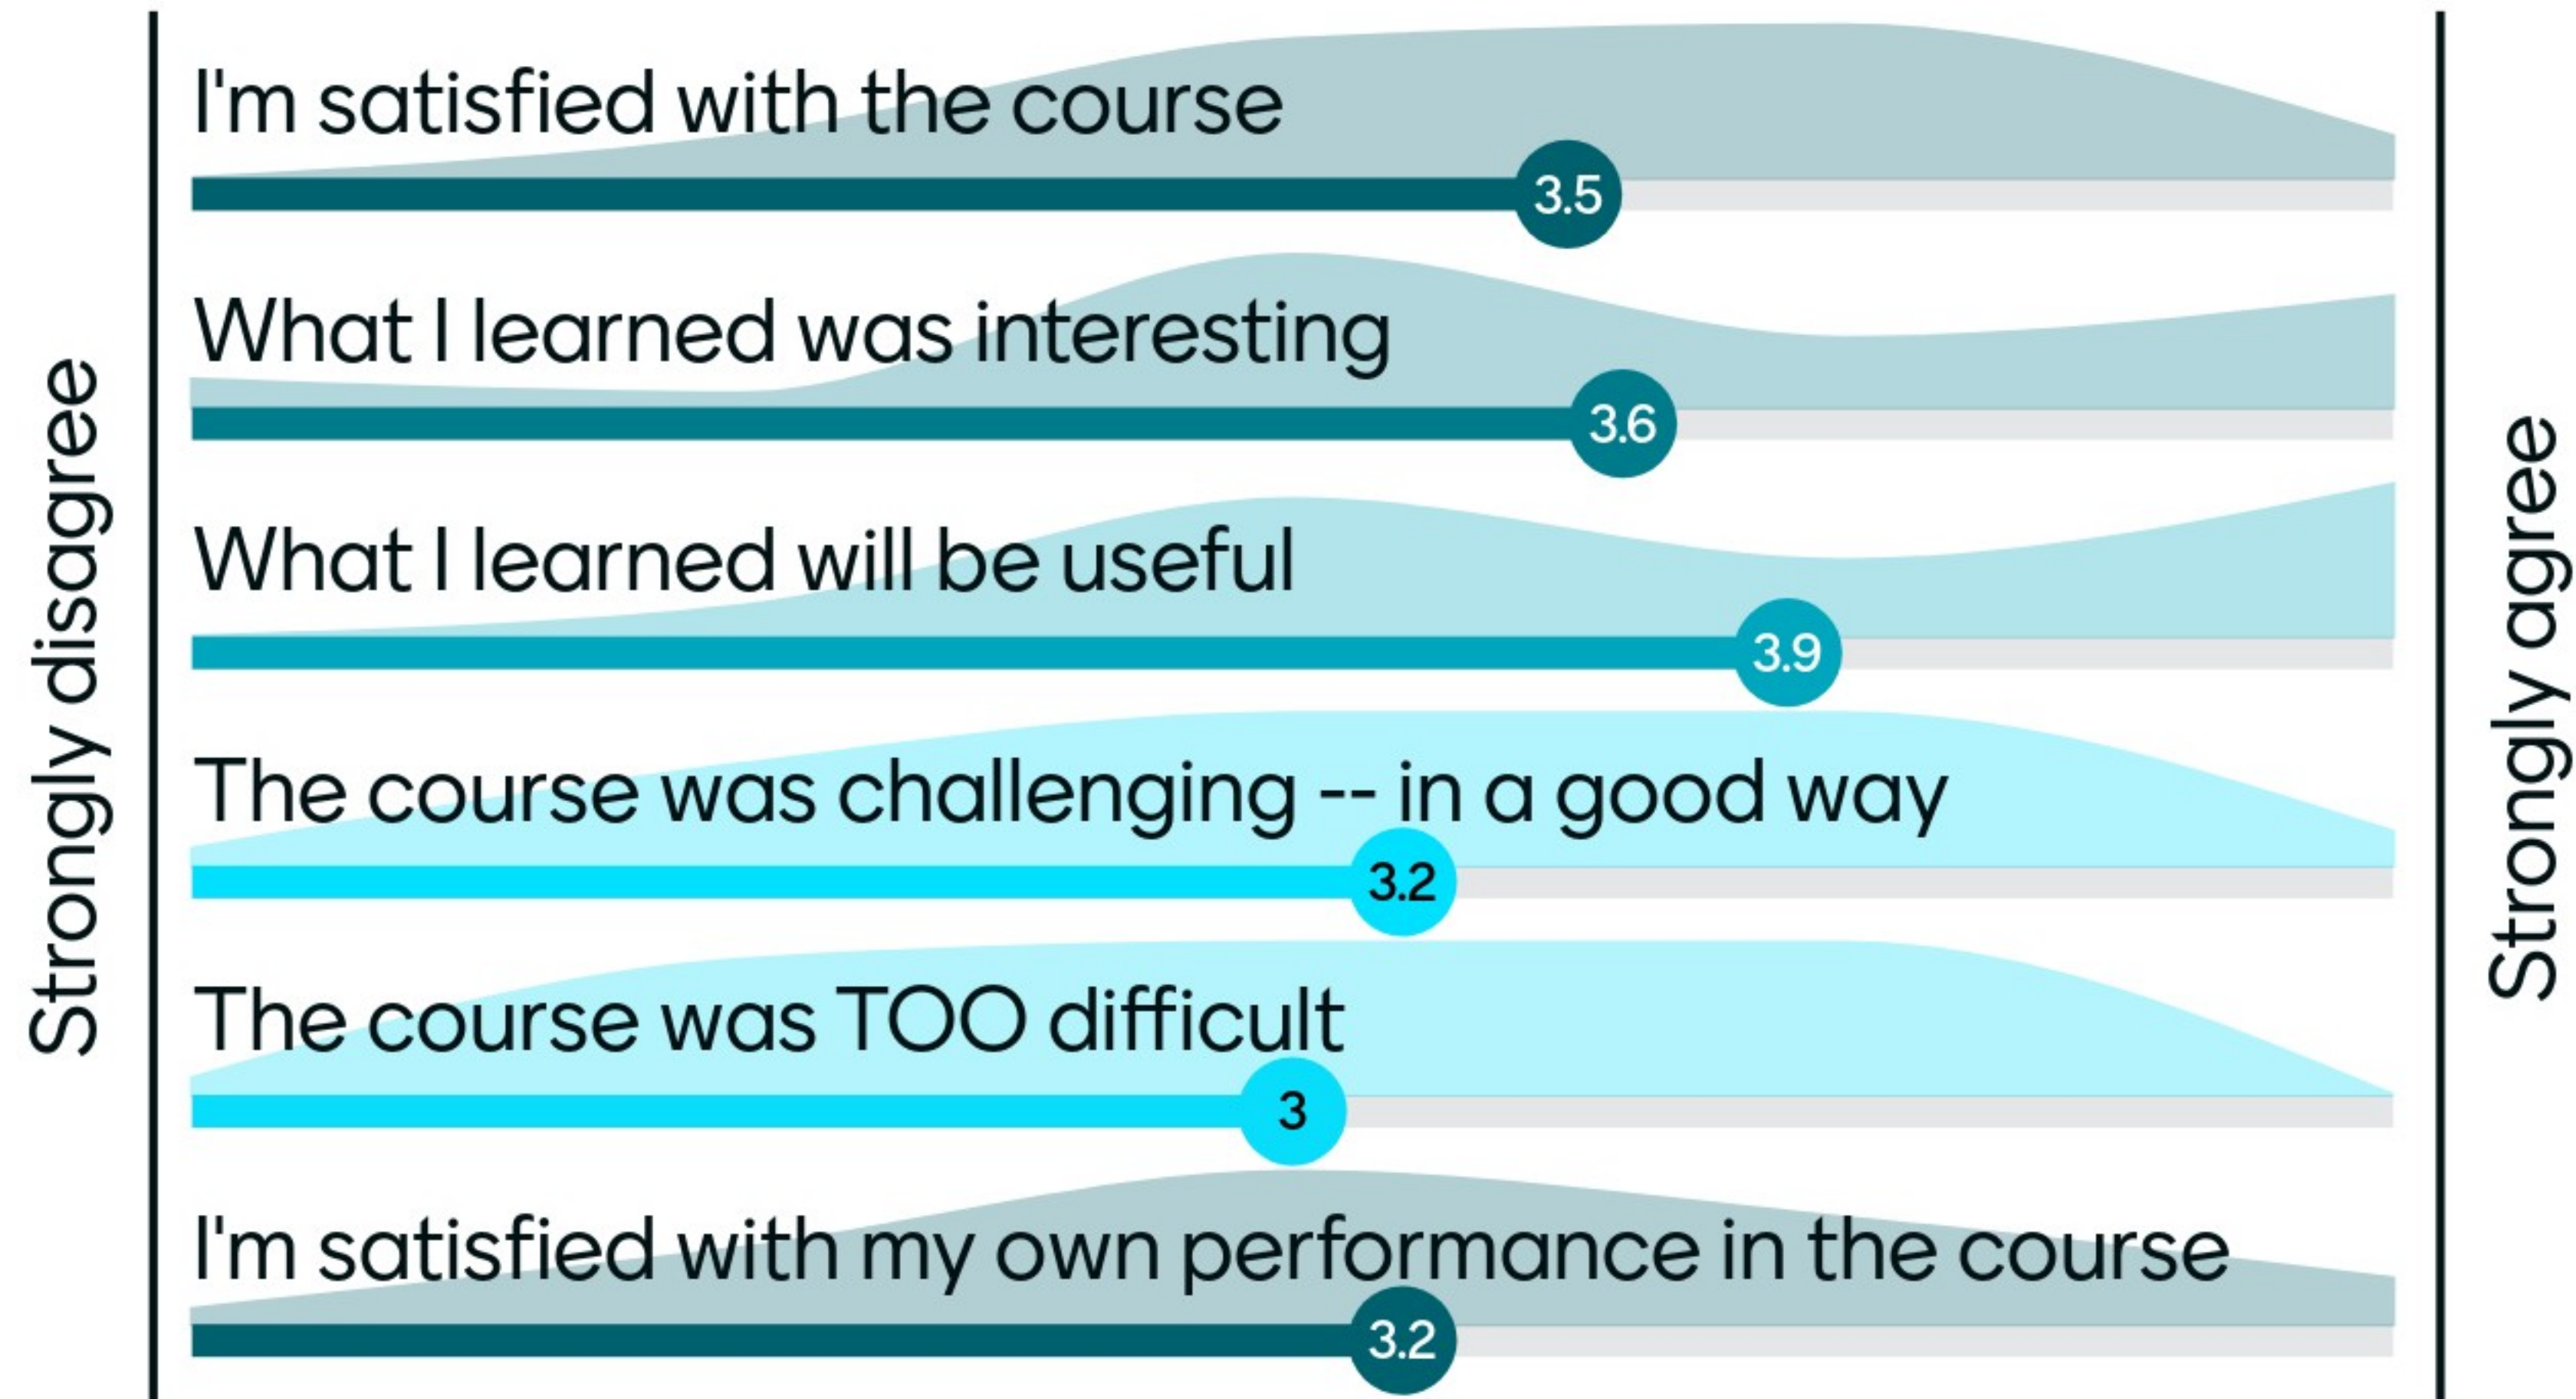

Thank you!
Andy
