Full text responses have been removed from the appendix. Those responses are summarized below under 'summary of comments by the students'.

Summary of comments by the students:**Q: 'What aspects of the course are you MOST satisfied with?'**

Common responses:
The teachers in general, specific lecturers/sections, organisation, overall content and resources, revision lectures,

Q: 'What aspects of the course are you LEAST satisfied with?'

Lab report corrections (too picky, unclear feedback), classes in the morning (10am - 12pm), want labs spread out/timing of labs*, unclear how extensive lab reports should be

* We have experimented with two lab periods (in the middle + end of the course). Neither solution works well, since most labs depend on material which is introduced at the end of the course /Andy

Q: 'Anything else you'd like to add?'

- Fun course
- Random question generator wanted*
*We used to have it, but we couldn't transfer the question db from moodle when we were forced to move to canvas /Andy

Summary of changes introduced after the last time the course was delivered

Course evaluation 5KE165 VT23

Course evaluations are critical in helping us develop our courses. They are also important for career development.

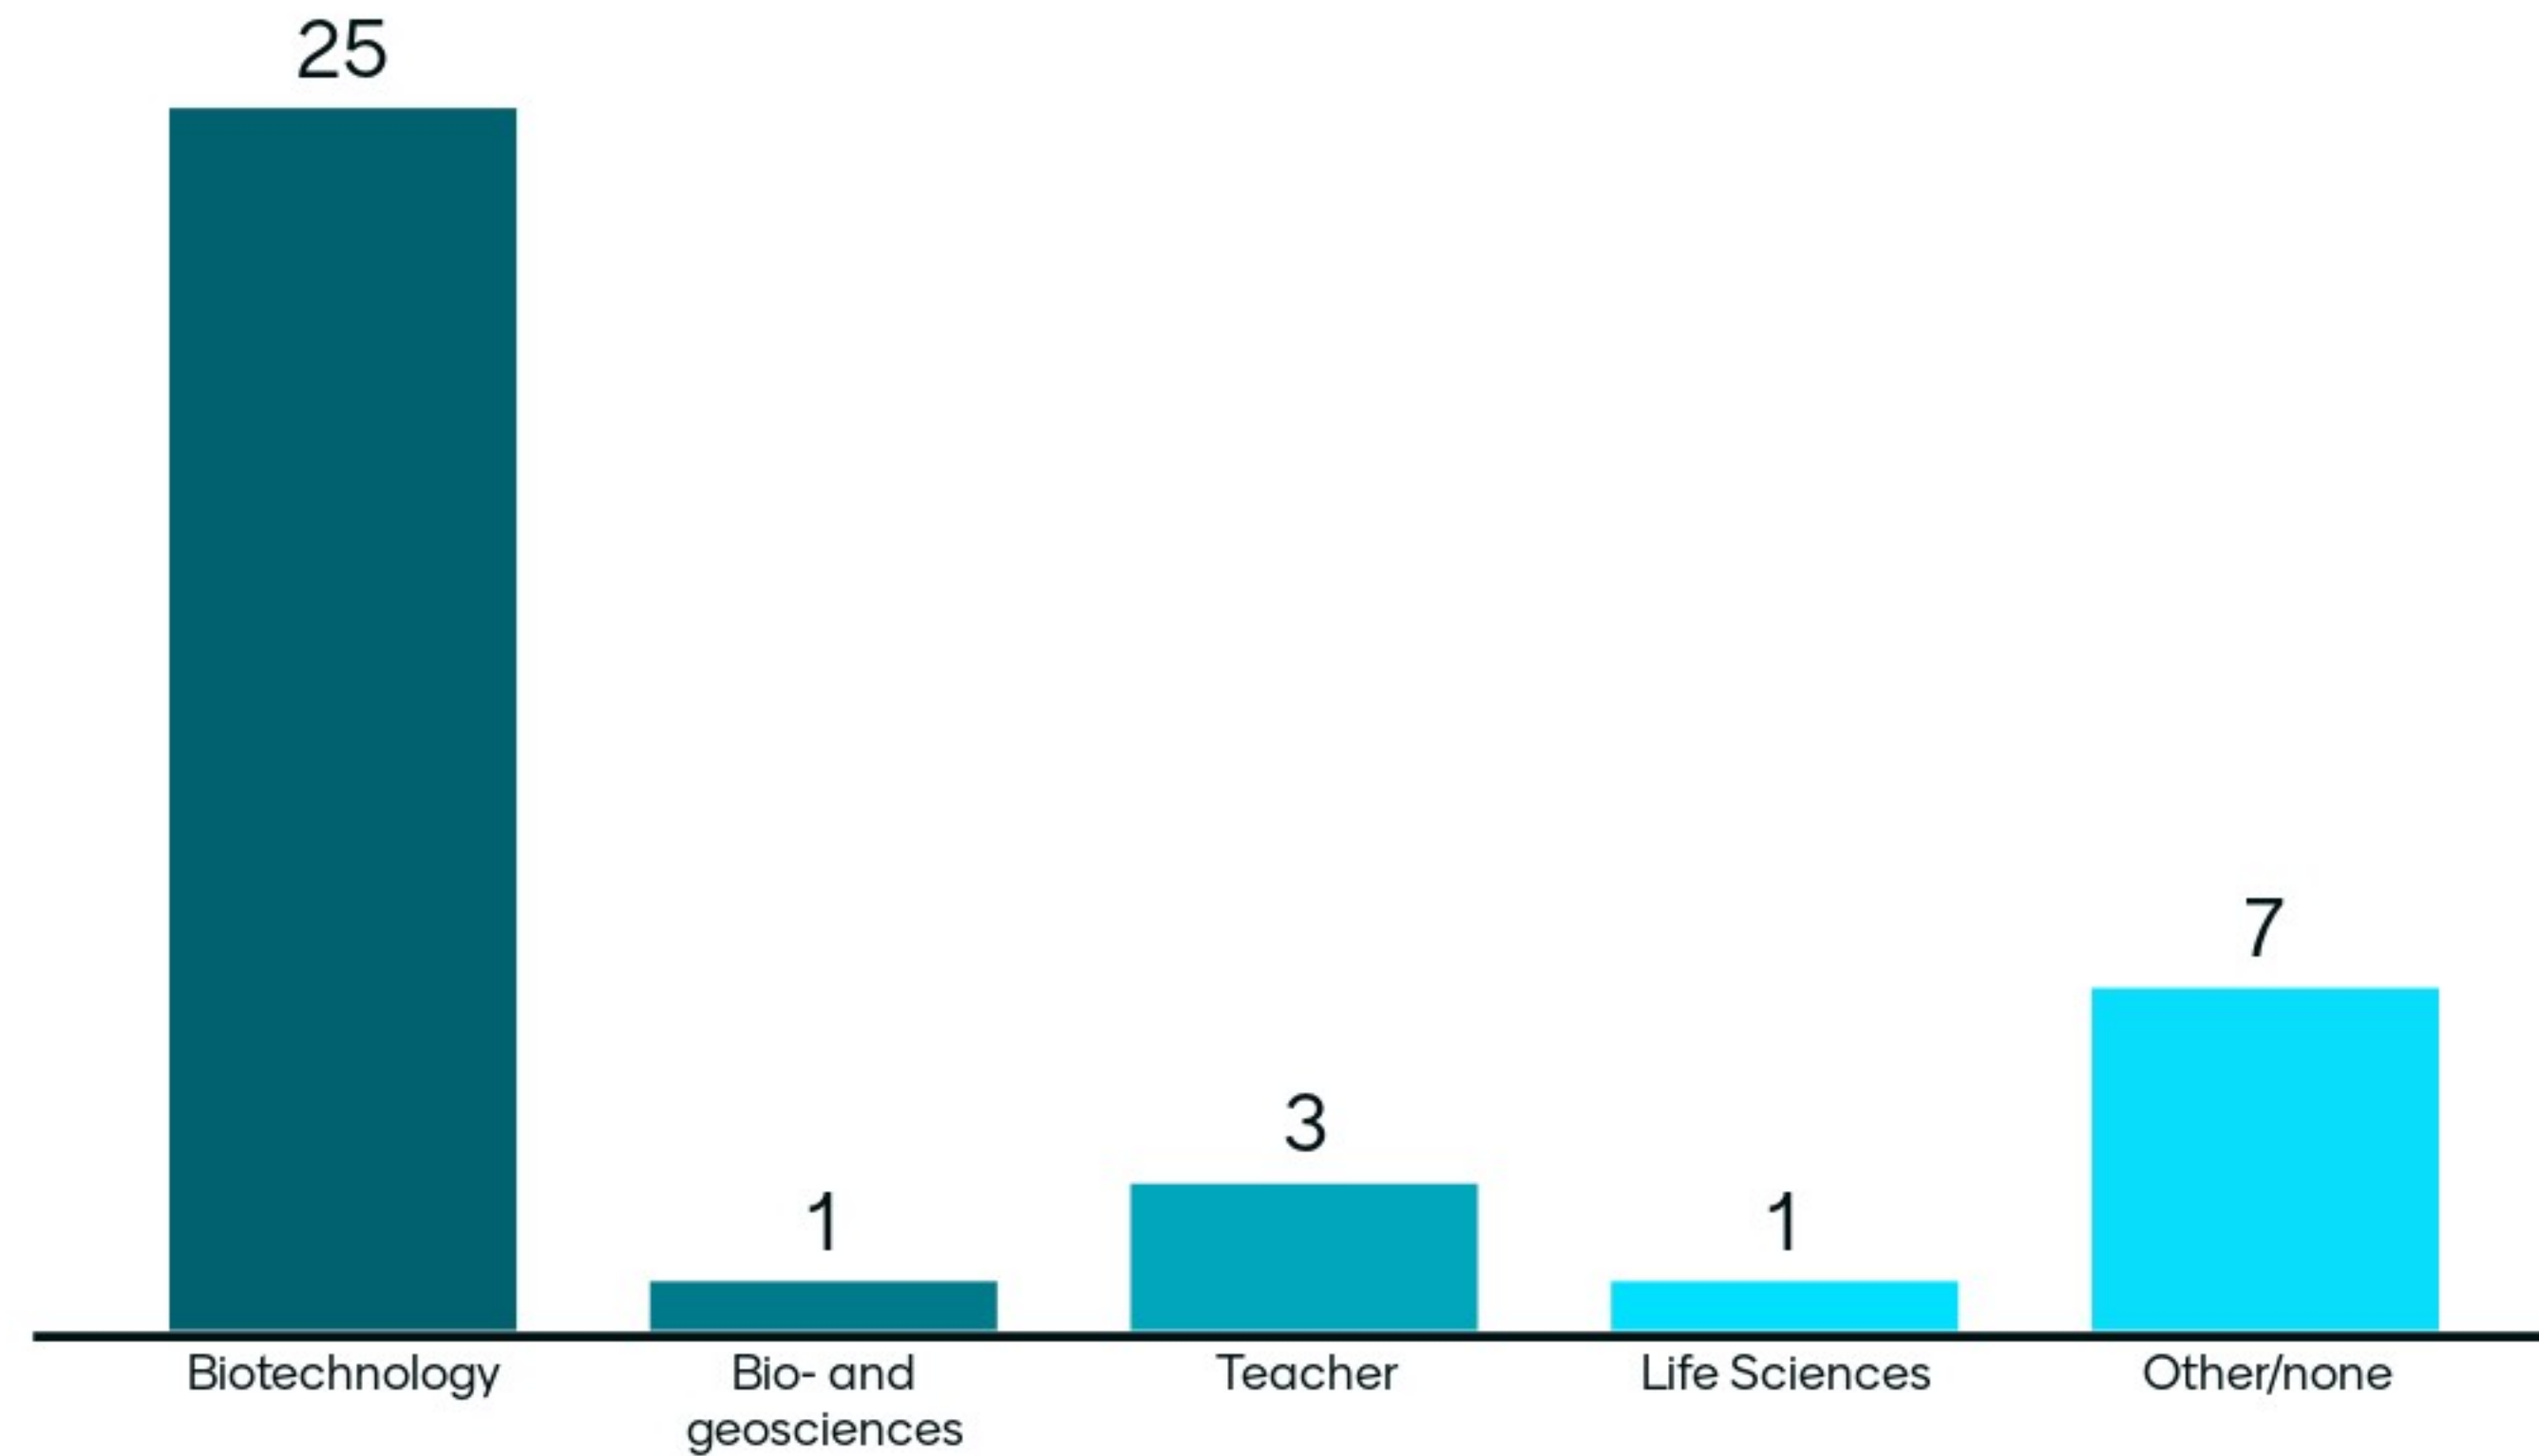

Please make sure to fill out this evaluation, even if you don't have any strong or particular opinions. It is possible to skip questions which you do not want to/cannot answer.

There are 13 pages, including this one. Most questions use a slider or are multiple choice. The last three slides have opportunities for you to enter text.

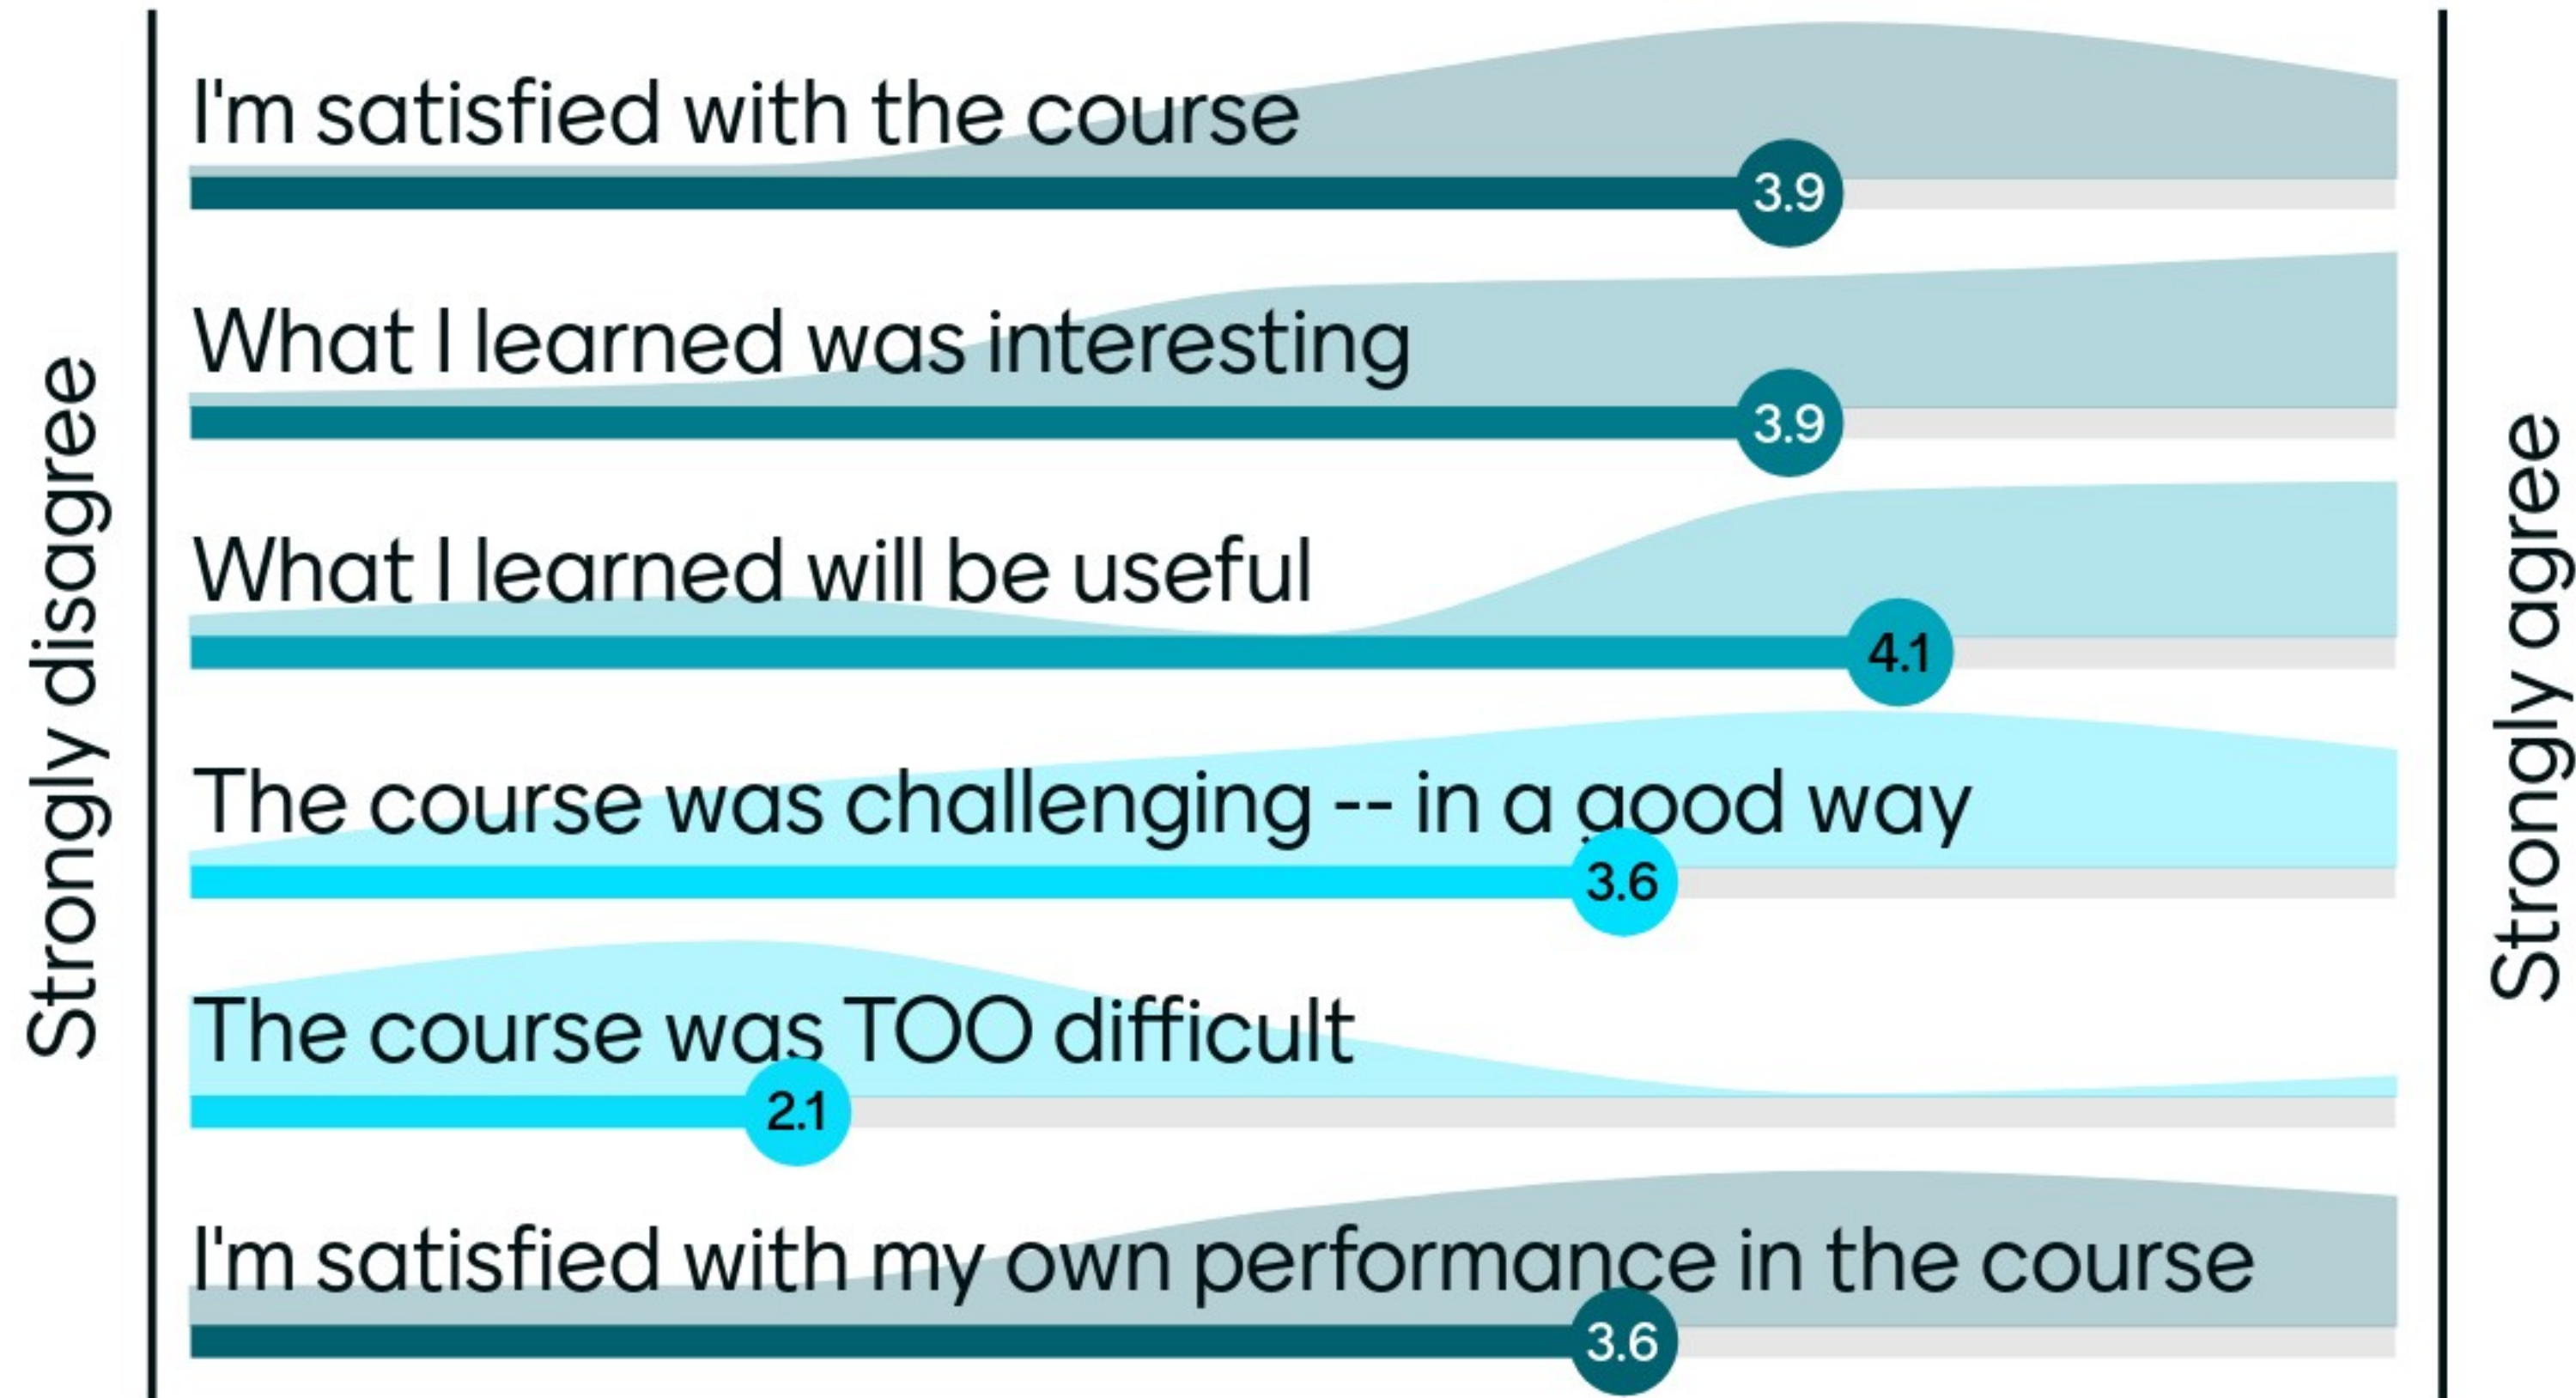

Thank you!
