

# Microbiology and Basic Molecular Biology HT21

## 15 ECTS. (5MO103, 3MB036)

30 August –1 November 2021

Zoom instructions from the University for students:

<https://www.aurora.umu.se/globalassets/dokument/ub/upl/e-larande/zoom-for-students.pdf>

**Important general instructions** to read and follow before the lecture that takes place via Zoom:

*Let's bring the same commitment to the online classroom that we all bring to the physical classroom.*

- We will adopt the same rules and norms as in a physical classroom (take notes; participate by asking and answering questions).*
- Please be certain to take notes as you listen to the lecture because it will not be possible to record the lecture. Please respect this.*
- Use your video if you have a strong enough internet connection. Be aware that because you will be on video others will see you and your surroundings. Make efforts to present yourself with this in mind.*
- Mute your microphone unless you are speaking. For everyone's benefit, join the lecture in as quiet a place as you have available.*
- During the lecture, you may be asked to participate via Chat, Polls or Breakout rooms. Please be prepared to do so by taking the time to familiarize yourself with the settings in Zoom beforehand.*
- Again, please be prepared to actively engage in the Zoom lecture. I may make mistakes, you may make mistakes; the important thing is that we try together to learn and understand.*
