

Umeå Transgene Core Facility

Ordering Form Pronuclear Injection

Note! By submitting this form the customer certifies that all figures below are correct and that the customer have read and understood the conditions listed below.

Customer name:	
DNA construct:	
Affiliation:	
Department:	
Telephone:	
Email:	
Email:	
Adress for shipment:	
Postal code and city:	
Adress for invoice (if other):	
Approval from ethical committe (must be attached to this form):	Date/number
Genetic background in which the transgenic mice will be made:	<input type="checkbox"/> F1 CBABL6/CBA <input type="checkbox"/> Inbred C57BL/6 <input type="checkbox"/> Other (consult with UTCF):
Age at which the offspring will be analyzed:	<input type="checkbox"/> Adult <input type="checkbox"/> Embryonic <input type="checkbox"/> Other:

Short description of the project and expected phenotype, or other information of possible interest to UTCF:

UTCF will attempt to generate transgenic mice by introducing a DNA construct into the mouse genome by pronuclear injection. This work will be charged according to taxes in force on signature date and under the terms stated at UCCB's webpage, where you also will find detailed information of the procedure.

*Unless otherwise decided beforehand, the customer is responsible for further analysis of the offspring i.e. analysis of transgenicity from tail biopsies or other analyses related to the project. **The customer is obliged to report back the number of positive founders to UTCF for statistical purposes.** UTCF should be acknowledged in the first published paper that describes the resulting transgenic mice. A reprint of this publication shall also be sent to the facility.*

Signature and date Customer:

Signature and date UTCF official:

Please review the above information carefully before submitting form by mail or in person to:
