**Your overall impression of the course. Was it something that you particularly want to highlight concerning particular literature, assignments and feedback?**

**Your overall impression of the course. Was it something that you particularly want to highlight concerning particular literature, assignments and feedback?**

It was a good informative course. The one part I had a bit hard time with was that in some of the videos in the first modules it was hard to hear what the teacher was saying

Very interesting course with vast variety of literature. One improvement could be to record the FAQ sessions in order not to miss information.
