

UMEÅ SCHOOL OF SPORT SCIENCES
UMEÅ UNIVERSITY

Agreement between Umeå University and

.....
(Name, social security number)

The commitment of Umeå University:

To enable the combination of competitive sports and studies, which means that institutions and units within the University will create opportunity for students that are active in competitive sports on an elite level to pursue studies and provide the student with support functions, regardless of institutional affiliation. These support functions are for example study counseling, individual study plans, additional examinations, and customized tempo. Other eligible support functions are customization of lectures, laboratory work, IT solutions and the like, based on the needs of the individual elite athletes.

To ensure that every institution and unit within Umeå University meet their responsibility of living up to the University's fundamentally positive attitude of combining competitive sports and studies. This means that institutions and units as far as possible should customize the teaching in accordance with the guidelines given together with the needs of the individual athlete.

To ensure that the demands on students engaged in elite competitive sports are the same as the demands on other students.

That Umeå School of Sport Sciences provide support to institutions and units in the process of finding flexible and personalized solutions for students engaged in competitive sports. Part of this is documenting different solutions in "Tools, tips and advice for the combination of competitive sports and studies" when reports from the institutions have come in.

To provide study coordinators as a support for elite athletes, institutions and teachers in relevant courses.

UMEÅ SCHOOL OF SPORT SCIENCES
UMEÅ UNIVERSITY

The commitment of the Student:

To contact, when admitted, the study counselor or the programme director of the relevant institution(s) (depending on the organization of the institution) to discuss the structure of the studies. On this occasion, programmes for training, matches/competitions and travelling shall be provided.

To give yourself a large part of the responsibility in making the combination of competitive sports and studies possible to accomplish, without the quality of the studies being negatively affected.

For the combination of competitive sports and studies to be possible, a mutual accountability from the individual competing student and from the relevant institution/unit is required.

This agreement is valid until further notice and as long as the student is an active student in Umeå University and engaged in competitive sports on an elite level, according to the definition of Umeå School of Sport Sciences. When the student finishes their studies or their career as an active elite athlete, this agreement is no longer valid.
