

Topspin installation

Topspin is free to use for academia and is available for Windows, MacOS and Linux. We have a number of floating licenses for Topspin but you only need a license file if you install Topspin using option 2.

Option 1

- Go to Bruker's web site (www.bruker.com) and create a user
- Login with your user
- You will find Topspin here: <https://www.bruker.com/nc/service/support-upgrades/software-downloads/nmr/free-topspin-processing/free-topspin-download.html>

Option 2

- Borrow the installation DVD from Tobias or Mattias **OR** download Topspin from <\\kbc-vnx.ad.umu.se\KBC\Install\PC\Campus program\Topspin>
- Contact Mattias or Tobias to get the license file
- Install
- Place the license file (license.dat) file in the directory C:\flexlm\Bruker\licenses (this will be created during installation)
