

Order of priority for awarding Erasmus+ traineeship grants

If limited funding makes it necessary to choose between applicants, the selection will be made based on the following criteria:

- Students who complete the traineeship within the framework of their degree (credit-bearing internship) are prioritized over those who carry out a voluntary traineeship outside the programme studies (for example between semesters).
- Students who have not previously received a grant within the Erasmus+ programme are given priority before previous grant recipients.
- Students with fewer opportunities to participate in the Erasmus+ programme are given priority.
- Students who travel sustainably to their traineeship are prioritized.
- Students who undertake their traineeship in a country other than their home country are given priority over students who wish to undertake a traineeship in a previous home country.
- Students who do their traineeship after completing their degree.
